

Denizli is the land of civilizations that were established thousands of years ago. The first agricultural activities started in these lands, so did the first trade, art, sports activities. Stone was formed initially on these lands. The first planned cities were constructed in this land. Denizli Metropolitan Municipality is highly concerned with passing the unique heritage from the magnificent civilizations in its border onto new generations. For this aim, we have undertaken the responsibility to reintroduce the Ancient City of Laodikeia, one of the major cities of the Ancient Era to the World Cultural Heritage. The point we have reached today is the evidence of our determination.
